**Repair & Maintenance Services:** A one-time or short-term agreement between the University and a vendor to remediate a problem with a product or piece of equipment. Often the agreement rate is based upon an hourly labor charge plus parts and supplies. Both parts and labor are recorded in the same account. Note that repairs are corrective and restorative following wear and deterioration; maintenance is preventive and anticipatory.

**Maintenance Contracts/Service Agreements:** Contracts between the University and a vendor specifying a level of ongoing support for a product or piece of equipment. Maintenance agreements often cover a one-year or longer time period.

**Contracted Services:** Services purchased from independent contractors or external organizations for professional and consultative personal services. These services are needed for maintenance and/or ongoing operations and cannot be provided by the current staff.
